

Music Lesson: FS/Y1/Y2. Body Percussion - learn about Pulse and Rhythm

Go to BBC Bitesize Y1 or Y2: - 1 MAY - to find three activities.

Activity 1 and Activity 2: are very similar to activities we do at school, putting patterns of sound together, 'call and response' listening and memory games.

Activity 3: 'BRING THE NOISE' - play it! - is fun to explore (and older children may enjoy it too!)

This is an interactive activity using 11 different songs and there are 3 exercises to follow:

1. 'Listen and Layer' - allows you to hear how a song is made of different parts eg, drums, vocals, keyboards etc. By tapping on the different elements you can add or take away the sounds that make up the song.
2. 'Feel the Beat' - this helps you to feel or hear the 'Pulse' (beat) by seeing it visually on the screen. Lyrics to the songs also appear on the screen for you to sing along to. Try clapping the beat too!
3. 'Make some Noise' - Press the buttons to make different sounds on top of the track you have chosen to play. You can play back the sounds you added to the track.
